

## Instruction 1: Recharge credit & Cashless app

Dear tenants,

This is how you can charge and recharge credit onto your transponder to be able to use washing machines and dryers.

There is a charging station in the common area in house 1 (Industrial). To start the recharging process, hold your transponder against the designated area. You can then use a debit card (also contactless) to recharge your credit.

Photo of the recharging station:

If you want to know how much credit you have, you can hold your transponder up to the recharging device.

You also have the option of registering with Cashless. There you can see your balance and past transactions. You register on Cashless with the e-mail address you provided during the onboarding process. In addition, please enter your first name, last name, street, zip code and city. Here are the links for the desktop version and the common operating systems:
